

Technical datasheet SBR rubber powder 0,0-0,8 mm

Product discription	Recycled rubber powder from Dutch car tyres (end of life)
Producer	Granuband B.V.
Production process	Ambient granulation
Product characteristic	Vulcanized
Packaging	Big bags / 25 kg LDPE bags
Article group code	331
Particle size (CEN-366)	0,0-0,8 mm
Particle size tolerance	±2%
Bulk Density (EN 1097-3)	330 kg/m3 (±7%)
Structure	Closed
Shape	Bulb shaped, angular and slightly angular
Color	Mainly Black
Textile contamination (CEN-366)	Max. 3 %
Other contamination (CEN-366)	99% clean of foreign matters
Scent	Weak scented
REACH	SVHC
Product applications	Rubber compounds / solid rubber wheels / bitumen roofing materials / asphalt industry / waterproofing membranes / paint / coatings / cow mattresses / rubber ring mats / etc.
