

**Technical data sheet SBR rubber granules 1,0 - 3,0 mm**

Product discription	SBR rubber granules from recycled car tires
Producer	Granuband B.V.
Production process	Ambient granulation
Packaging	Big bags / 25 kg LDPE bags
Particle size	1,0-3,0 mm
Bulk density	Average: 430 kg/m <sup>3</sup>
Structure	Closed
Particle shape	A2
Color	Black
Textile contamination	approx. 1,15 %
Other contamination	99,9 % clean of foreign matters
Scent	Weak scented
Deformation	77%
Rest deformation	12%
Wear consistence	99%
REACH	Passes SVHC
Leaching	Passes DIN 18035-7
Product applications	E-layers, shock pads, rail blocks (anti vibration, anti noise), etc.

**Granuflex® is a brand name of Granuband B.V.**
